

## Introduction to PACE

PACE, formed in 2017, is an international developer of clean energy with a focus on utility scale solar and storage projects. We develop our own projects from first contact to operation.

Our driven and mobile team work toward common goals and across markets to develop low cost, high yielding solar and storage assets. More info can be found on our website at [www.pathfinderce.com](http://www.pathfinderce.com).

PACE is actively developing new projects in the UK and internationally and gearing up to build, own and operate its existing projects as they become permitted. We are looking for exceptional candidates to assist on managing and realising these projects - from origination through to execution.

You will learn from a dynamic team with combined experience of over 1GW and 30 years of clean energy experience. The role will initially be based in our office in Bristol.

The role is initially a 6 month internship, with opportunities for a full time role and further progression into other areas of the business.
